

2nd Annual Primary Mathematics Conference

Assessment: It's a whole-school approach

A TEAM-BASED CONFERENCE FOR PRIMARY SCHOOL EDUCATORS

This year's conference will share ground-breaking assessment techniques which are quick and easy to implement and provide real, meaningful insights which you can use to tailor students' learning on the spot. With its power to transform the learning in your classroom, you'll be amazed at how simple and effective assessment can be.

KEYNOTE SPEAKER Assoc. Prof. Rosemary Callingham has an extensive background in mathematics education in Australia, in teaching and research. Internationally she has worked in Hong Kong and with UNICEF in North Korea. Connect, learn, be inspired with three 75-minute concurrent sessions, each with three workshops to select from. Every school receives a copy of *Assessment for learning: Why, what and how?* (2009) by Prof. Dylan Wiliam.

Who should attend?

Schools can send a team of up to eight educators including:

- Classroom teachers, K-6
- Instructional Leaders
- Numeracy / Mathematics Coordinators
- Head of Curriculum
- Principal, Deputy Principal, Assistant Principals

From assessment to teaching:
Bridging the gap
